

Privacy Policy

Information Collection and Use LAN/WAN Professional is an exclusive IT mentoring and professional development agency that specializes in helping techies advance their career in the information technology industry through comprehensive IT internships, career advancement and placement services. LAN/WAN Professional is located at 3002 Dow Avenue, Tustin, CA 92780. You can e-mail us at info@www.lanwanprofessional.com. This e-mail address is being protected from spam bots, you need JavaScript enabled to view it. We will not sell, share, or rent this information to others in ways different from what is disclosed in this statement. LANWANProfessional.com collects information from our users at several different points on our web site. LAN/WAN Professional does recognize the importance of protecting the privacy of Personal Identifying Information about you as a user of our web site. We consider the following information we collect from you to be Personal Identifying Information: e-mail address, name, password, mailing address, phone number, and credit card information. This web site does not collect Personal Identifying Information about a user other than information that is voluntarily provided to our Company; in this way, we can serve the user's needs as well as our own legitimate business purposes. Our company uses a user's Personal Identifying Information in order to help us improve our web site, or for our company's marketing and promotional purposes. This information will be treated confidentially within our company. We make every effort to preserve user privacy; however we may need to disclose personal information when required by law wherein we have a good-faith belief that such action is necessary to comply with an appropriate law enforcement investigation, current judicial proceeding, a court order or legal process served on our web site.

Cookies

A cookie is a small text file that is stored on a user's computer for record-keeping purposes. Usage of a cookie is linked to personally identifiable information while on our site. Once the user closes his or her browser, the cookie simply terminates. For instance, by setting a cookie on our site, the user would not have to enter a password more than once, thereby saving time while on our site. If a user rejects the cookie, you may still use our site. The only drawback to this is that the user will be limited in some areas of our site.

Log Files

As with most web site servers, we gather certain information automatically and store it in log files. This includes internet protocol (IP) addresses, browser type, internet service provider (ISP), referring/exit pages, platform type, date/time stamp, and number of clicks to analyze trends.

We use a third-party tracking service called Google Analytics that logs non-personally identifiable information about visitors to our site in the aggregate to analyze trends, administer the sites, evaluate the value of web site content, and gather broad demographic information. IP addresses, etc. are not linked to personally identifiable information, except to prevent fraud or abuse of the system.

Newsletters

If you are receiving one of our newsletters and wish to unsubscribe, you may do so by clicking on the unsubscribe link located at the bottom of each newsletter. Your email address will be removed from further mailings. Use of Web Beacons LAN/WAN Professional's Newsletters may contain electronic images known as Web beacons which allow us to count users who have visited those pages. We may include Web beacons in promotional e-mail messages or our newsletters in order to determine whether messages have been opened and acted upon.
